BILIARDI

The Expo model represents a collaboration between Hermelin Billiardi and Hillsideout.

This extraordinary table was conceived around the concept of elegance, lightness, contemporary design and craftsmanship.

Its creation involves the use of a mix of Italian woods and certified Amazonian woods, which give the piece a unique chromatic vibrancy.

Featuring a painterly design, the Expo pool table is distinguished by the beauty of its colorful, handcrafted wood inserts and four legs inspired by the architecture found in the works of Lyonel Feininger. These unique forms give the table a distinctive and contemporary aesthetic.

Through the use of selected materials and futuristic form, the Expo pool table also reflects the current complexity faced by the Amazon rainforest. It is a masterpiece that goes beyond its functionality, conveying a message of environmental awareness and appreciation for art and craftsmanship design.
