

HARMONIA GAME TABLE

Design by Benedetta Colombo

hermelin
BILIARDI

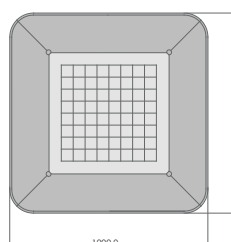

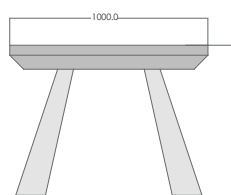

It's a luxury furniture that merges precious materials: the striped rosewood sides fit perfectly with the satin nickel details and the soft leather finishes of the external play area and legs.

The reversible play area can be used on both sides and it is suitable for different game typologies: one side, made by cloth, is designed for poker, mahjong and cards; in the opposite side the checkers and chess board alternates squares, that have been entirely in striped rosewood and maple handmade.

The Harmonia game table is available in the following sizes:

- 100x100cm
- 120x120cm

- Sides in striped rosewood (or other wood at customer's choice).
- Sides and legs covered in leather, colour of customer's choice.
- Cloth colour to customer choice.
- Rosewood and maple chessboard.
- Internal compartments for accessories and playing instruments.
